

**SPECIFICATIONS** 

| Rotary head and chuck      |  |
|----------------------------|--|
| Holding capacity           | 28 000 lb (12 700 kg)                  |
| Spindle interior dimension | 4.9" (124 mm) PWL Rod                  |
| Chuck operation            | Spring closed and hydraulically opened |
| Final drive                | HV 60-2 chain in an oil bath           |
| Hydraulic Motor            | 80 cc variable                         |
| Transmission               | HI-LO 2 speed mechanic                 |
| Rotary Head Ratio          | 1:2                                    |
| Lubrication                | Pump pressurized, filter and cooler    |
| Speed                      | 0 to 1 300 RPM                         |

## **FEATURES AND BENEFITS**

- Underground (also available in surface version)
- Heliportable
- Made of steel
- Depth capacity: 800 m (2 625 ft) N size
- Total weight in undergroung configuration: 11 486 lb (5 210 kg)

| Filtration  |
|---|
| 10 micron absolute filter on return line (2)                        |
| High pressure filter (2)  |
| One strainer inside the hydraulic tank connected to the suction (2) |

| Hydraulic module                                   |  |
|--|--|
| Floating rotary head Ñ Torque limit on rotary head |  |
| Hydraulic pumps (2)                                | 188 I/min (47 US gal/min) @<br>1 800 RPM (max. 4 000 psi (275 bar) |
|  | 136 I/min (36 US gal/min) @<br>1 800 RPM (max. 4 000 psi (275 bar) |
| System drive                                       | Open loop, Load-sensing circuit                                    |
| Hydraulic pressurized tank                         | 55 US gal (208 I)  |
| Oil heat exchanger                                 | Water cooling (Air cooler optional)                                |

| Weight  |                       |
|---|-----------------------|
| Electric power unit                             | 2 072 lb (940 kg)     |
| Diesel power unit                               | 1 400 lb (635 kg)     |
| Hydraulic pump and tank                         | 1 550 lb (703 kg) wet |
| Control panel                                   | 672 lb (305 kg)       |
| Drill head                                      | 628 lb (285 kg)       |
| Drill head hydraulic motor                      | 70 lb (32 kg)         |
| Drill head transmission                         | 85 lb (39 kg)         |
| Rod holder                                      | 254 lb (115 kg)       |
| Feed frame assy (extension and pulley included) | 2 568 lb (1165 kg)    |
| Mast base                                       | 2 127 lb (965 kg)     |
| Wireline hoist                                  | 460 lb (454 kg)       |
| Hydraulic hoses                                 | 1 000 lb (454 kg)     |
| Surface mast                                    | 1 000 lb (454 kg)     |

| Drilling capaci   | ty                   |                   |
|---|----------------------|-------------------|
| *Dimension  | *B 2 3/16" (55,6 mm) | 3 600 ft (1100 m) |
| recommended   | *N 2 3/4" (69,9 mm)  | 2 625 ft (800 m)  |
| for maximum   | *H 3 1/2" (88,9 mm)  | 1 310 ft (400 m)  |
| performance   | P 4 5/8" (117,5 mm)  | 820 ft (250 m)    |
| Drilling capacity is calculated on a 90 degree down hole and will depend on in-hole tools, ground conditions, drilling techniques and equipment used. |                      |                   |
| Recommended electric engine: 100 HP ( 75 Kw) at 1 800 RPM   |                      |                   |

Recommended diesel engine: 155 HP (157 Kw) at 2 100 RPM

| Feed frame                              |                                  |  |
|---|----------------------------------|--|
| Head stroke                             | 5 ft 6 in (1,68 m)               |  |
| Raising speed                           | 200 ft/min (61 m/min)            |  |
| Lowering speed                          | 200 ft/min (61 m/min)            |  |
| Pull capacity                           | 18 000 lb (8 300 kg) @ 4 000 psi |  |
| Push capacity                           | 18 000 lb (8 300 kg) @ 4 000 psi |  |
| Possible angle<br>(Underground version) | -90 to 90 degrees                |  |
| Possible angle<br>(Surface version)     | 0 to -90 degrees                 |  |

| Surface mast              |                                  |
|---------------------------|----------------------------------|
| Pull speed                | 220 ft/min (67 m/min)            |
| Speed of descent          | 370 ft/min (113 m/min)           |
| Single line pull capacity | 10 000 lb (4 500 kg) @ 4 000 psi |
| Rod pull length           | 10 ft (3 m)                      |

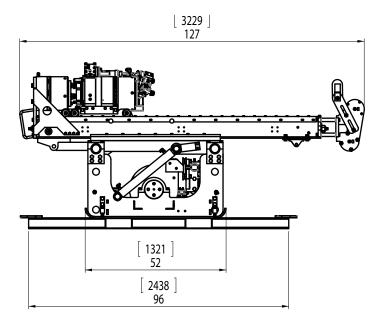

| 2-Speed transmission   |        |         |                                   |
|--|--------|---------|-----------------------------------|
| Speed  | Ratio  | RPM     | Maximum Torque                    |
| L0   | 3.46:1 | 0-361   | 2 098 lb*ft (2 840 N*m) @ 361 RPM |
| HI   | 1:1    | 0-1 300 | 606 lb*ft (820 N*m) @ 1 300 RPM   |
| Speed and torque based on a 80 cc hydraulic motor at 4 000 psi (275 bar) |        |         |                                   |

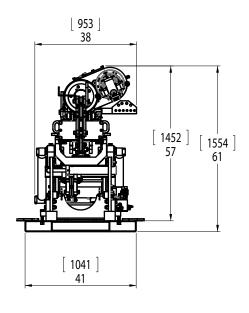

| Wireline hoist                    |                   |  |
|-----------------------------------|-------------------|--|
| Cable capacity (3/16 in - 4.8 mm) | 3 000 ft (915 m)  |  |
| Empty Pull capacity               | 2 000 lb (907 kg) |  |
| Full Pull capacity                | 650 lb (295 kg)   |  |
| Variable speed as needed          |                   |  |
